Alabama Leadership Academy

Camp Chandler
November
13th - 15th

ALCKI

Alabama Leadership Academy

WHAT IS ALA?

The Alabama Leadership Academy is the Alabama District of Circle K International's fall conference. Formerly named MER, the conference has shifted to a conference that provides more leadership and team-building activities. The goal of the conference is to allow attendees an opportunity to grow personally, and develop their leadership abilities. At the end of the weekend, attendees graduate and receive a certificate of completion.

WHAT ACTIVITIES ARE THERE?

Mount Chandler – Climbing Tower

Have you ever wanted to see what your made of? If you're looking to challenge yourself then come and give Mt. Chandler a try. This 65 foot Climbing Tower has three levels of difficulty: beginner, intermediate, and advanced, and even an open face for rappelling. So lace up your climbing shoes, gather your wits, and let the Camp Chandler instructors take care of the rest. They will cover all safety rules, harnessing, and climbing instruction before you begin. Let us help you reach new heights!

High Ropes Course

Looking for a little adventure? Then YMCA Camp Chandler's High Ropes course is right up your alley. The adventure begins as you scale the cargo net, then you make your way across a suspended long, then it's on to the Burma wire bridge, and finally it's the ride of your life down through the trees on our 100 foot Zip-Line. This course also offers several other options that are more difficult. The entire course is run and supervised by Camp Chandler's caring and certified staff. Helmets and harnesses are provided and inspected prior to use. This course represents an excellent opportunity to test oneself in a fun and safe environment.

Low Ropes / Teambuilding Course

Participants are first broken up into groups of 15 or less. Then, our instructors go through the essential elements of successful teams. These elements are the focus of a series of challenges and events that require group interaction. After each challenge the groups are then debriefed by their instructor about their performance, their strengths, and the areas in which they need to improve. All events are "Challenge by Choice" which means participation is requested for the strength of the team but not required, as some of these events may be outside of an individual's comfort zone. Working together is an important skill for groups of any size, but, it is not a skill that comes naturally. It must be developed an understood and Camp Chandler's Low Ropes/ Teambuilding course will do just that.

Personal Development Tests

Participants will take a version of the Meyers Briggs Type Indicator Test along with a Learning Type and Leadership Type test to assist in helping the individual determine their personal strengths and weaknesses.
